

Dot Your I's Day Solution

Answer: [REDACTED]

The well-known phrase of this holiday is to "DOT your i's and CROSS your t's." So the phrase in the flavortext that says

“Connect your i’s and find your t’s”
instead really means to

"Connect your DOTS and find your CROSSES"

which in turn, means to do the following steps:

1. Connect the eyes based on where they are looking, in a connect-the-dots-esque exercise.
2. Look at the "crosses," which means intersections, of where the lines cross each other.

Connecting the eyes gives you:

Now the fun part!

The rest of the flavortext clues to a transformation where all T's have been turned into a different letter. Upon identifying all the images, it is notable that none of the words contain the letter T.

Each word has one letter that can be transformed into "T" in order to form another English word.

The words should be ordered in the order that the intersections are *completed*.

This means that even though a line goes over LILO first, it is not considered until the second line goes over LILO and completes the intersections.

The image IDs at the intersections are below.

Image	Transformed word	Transformed letter
WALES	TALES	W
HANKS	TANKS	H
LEI	LET	I
BEAN	BEAT	N
SHOES	SHOTS	E
CARBON	CARTON	B
LILO	LILT	O
BOA	BOT	A
CURIE	CUTIE	R
DOWN	TOWN	D
NOSE	NOTE	S

The letters that get transformed spells out WHINEBOARDS. Applying the transformation one last time gives us the answer **WHITEBOARDS**.
