

Walk the Clank

Written by: Ian, Ananya, Cindy

Answer: XXXXXXXXXX

This puzzle is written around the idea of the seven seas (seven C's and seven Crimes).

(Fun fact: Blackbeard was only a pirate for around two years, yet he somehow became one of the most famous pirates in history. Allegedly, he was a brilliant self-promoter and quite theatrical, cultivating a fearsome reputation for himself.)

Note that each crime is ten words long. The X's in the image mark a specific word for each crime, each containing exactly one C. You can transform the word by turning the C into another letter to make the crime more understandable.

	Word from map	Line	Transformed word	Transformed letter
1	Word 4	Took all the <u>cans</u> and pots from the ship's kitchen	PANS	P
2	Word 5	Faked light signals to <u>cure</u> passing ships into a trap	LURE	L
3	Word 3	Stole radioactive <u>cranium</u> samples from inside a mad scientist's lab	URANIUM	U
4	Word 2	Cleverly <u>scared</u> sailors in elaborate traps to steal their gold	SNARED	N
5	Word 9	Kept trying to push his enemies offboard to <u>crown</u> them	DROWN	D
6	Word 6	Let his parrot take a <u>peck</u> at classified naval documents	PEEK	E
7	Word 3	Stole someone's <u>face</u> to take their spot on the ferry	FARE	R

When you look at the letters that the C's changed into, you'll get the answer **PLUNDER**.
