

[Solution] Foraging

Written by Ananya

Answer: XXXXXXXXXX

With help of the flavor text, puzzlers can begin by identifying which plants in the graphic are or are not edible.

Image	Plant Name	Edible?
	Rosary Pea	Poisonous
	Dandelion	Not Poisonous
	Water Hemlock	Poisonous
	Nettle	Not Poisonous
	Cacao	Not Poisonous
	Old Man Saltbush	Not Poisonous

	Poison Arrow Tree	Poisonous
	Pansy	Not Poisonous
	Wolf's Bane	Poisonous
	Flame Lily	Poisonous

Each row of plants has both edible and poisonous plants. Reading them as binary outputs using "1" for edible (bring to potluck!) and "0" for poisonous (don't bring!), puzzlers can extract a letter from each row.

Plant 1	Plant 2	Plant 3	Plant 4	Plant 5	BINARY	AZ
Poisonous	Edible	Poisonous	Edible	Edible	01011	K
Edible	Poisonous	Edible	Poisonous	Edible	10101	U
Poisonous	Edible	Edible	Poisonous	Edible	01101	M
Edible	Poisonous	Poisonous	Poisonous	Edible	10001	Q
Edible	Poisonous	Edible	Poisonous	Edible	10101	U
Poisonous	Poisonous	Poisonous	Poisonous	Edible	00001	A
Edible	Poisonous	Edible	Poisonous	Poisonous	10100	T

The solution is KUMQUAT.
